

**Rajarata University of Sri Lanka**  
**Faculty of Applied sciences Department of**  
**Computing**  
**ICT 2204 -Web Technologies/COM 2303-Web Design**  
**Assignment-01**

---

1. Create a sample website using HTML and CSS. (Your website should include a minimum of 5 pages.)

You must include the following contents on your website.

- Tables
- Forms
- Internal Links
- Image Maps
- Iframes

➤ Use this link to include the topic of your website before 27.02.2024  
<https://docs.google.com/spreadsheets/d/1VTUBKTeJSITTqZ0L9T6I9VBwz7Ox9JbQ-IYMrg7AJg/edit?usp=sharing>

➤ Please update your assignment on your GitHub account.

➤ Please note that, if your topic has been taken by someone else before you pick it, please modify your topic or pick something else.

➤ A list of example ideas is given below.

- Website for Rajarata University
- Website for sport magazines
- Website for a shopping center
- Website for a voluntary organization
- Website for a food outlet
